Position of **UFPA** in the rankings

PROFESSIONAL JOBS SUMMITS RANKINGS STUDENT A

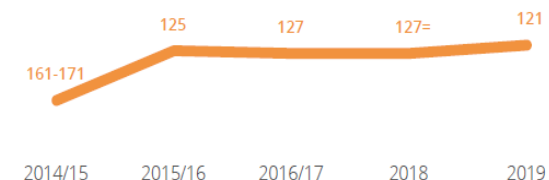

World University Rankings 2019

UFPA ranks 21st /36 Brazilian institutions ranked among the 1,250 best on the planet, being the only one in the Northern Region to join the list.

RANKINGS TREND

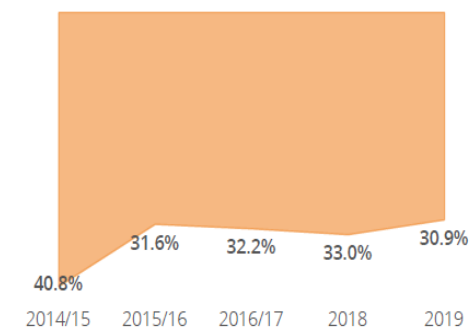

Since 2014, Universidade Federal do Pará - UFPA gained 40 places. Over the 5 considered years, the institution moved up twice and fell once.

TOP 31%

In the 2019 edition, Universidade Federal do Pará - UFPA performed among the top 31% in the QS World University Rankings : Latin America.

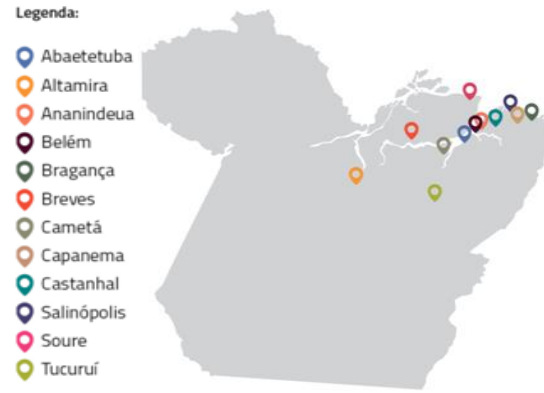

PERCENTILE EVOLUTION QS World University Rankings : LATAM

UFPA Facts:

51000+

The largest University in number of undergraduate students among 65 Brazilian Universities

If UFPA was a city, it would be, in terms of population, bigger than 92 of the 144 municipalities of Pará.

Its 12 *campi* reaches 72 municipalities, being equivalent to 40% of the state's population.

Why should **UFPA** adopt an internationalization agenda?

Amazonia is one of the world's regions which provokes most interests, because of the abundance of its natural resources as well as its ecosystem services.

For the world it is strategic and for the UFPA scientific community it is imperative to achieve scientific prominence and acquire knowledge that is the basis for making decisions that will shape the region's future.

Internationalization is one of the best tools to guarantee a global scientific role, to form critical mass and to intervene with quality science, validated and certified by its peers, in the destinations and routes of global knowledge about the Amazon.

UFPA's INTERNATIONALIZATION

1957

UFPA Creation . Interinstitutional cooperation Program.
Institutional agreements and individual initiatives by professors.

1986

Special Council of National and International Relations
denominated ARNI
Boosted programs of national and international cooperation.

1987

Association of Amazonic Universities (UNAMAZ).
Projects such as the System of Information of Amazon
(SIAMAZ).

2008

ARNI prepared the infrastructure for program Erasmus Mundus,
created by the section of Academic Mobility.

2009

ARNI became PROINTER (International Relations Office).

What is PROINTER?

The International Relations Office is the agency responsible for the political definition of international cooperation of Federal University of Pará (**UFPA**).

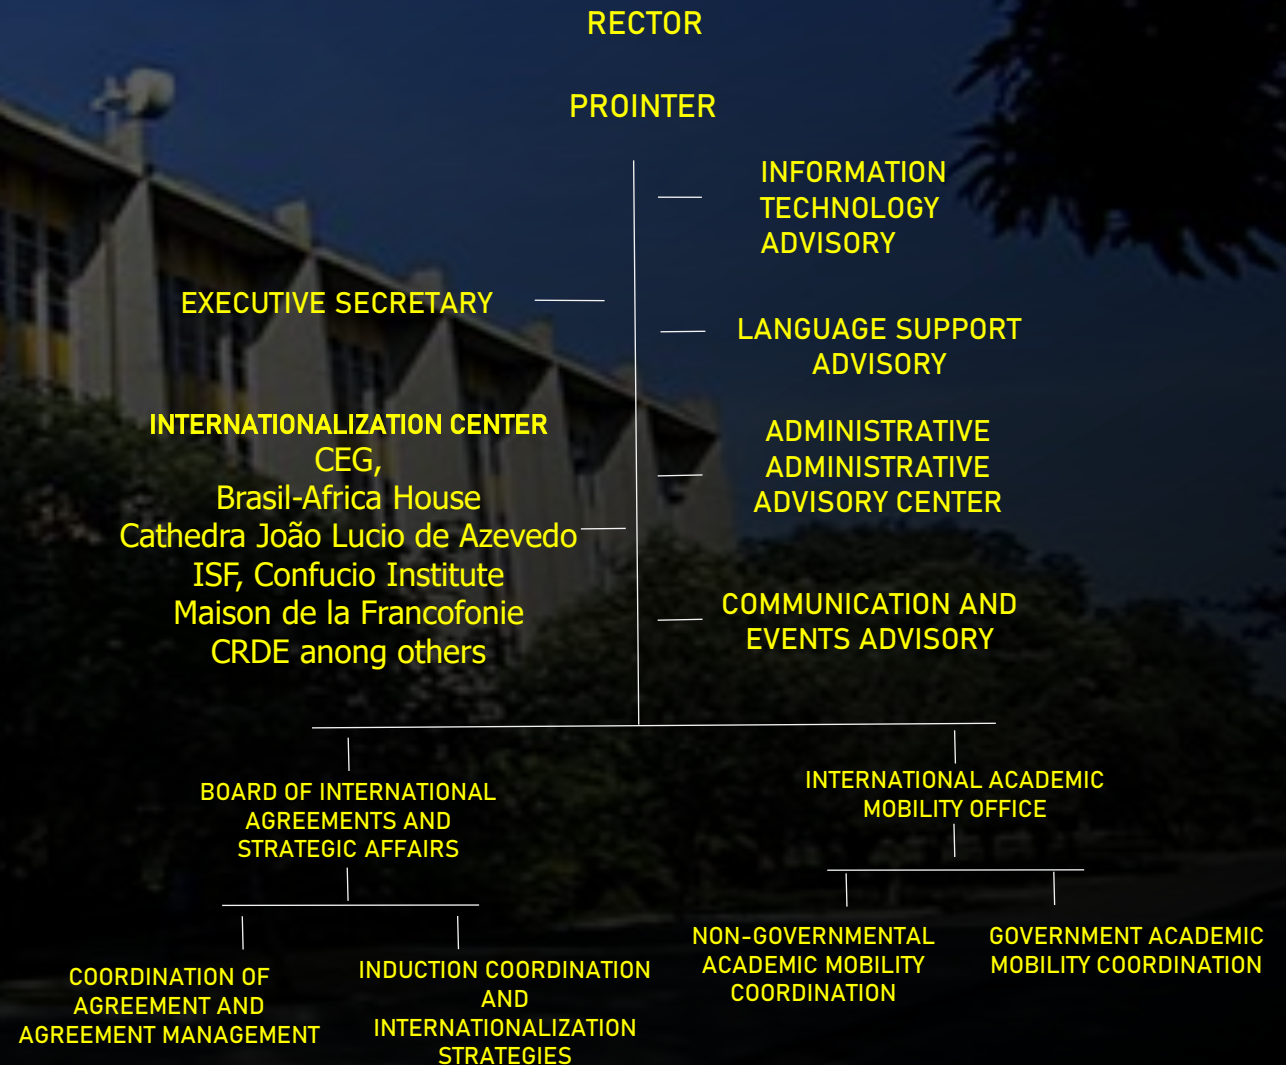

Our mission is:

Coordinate policies and articulate strategies of internationalization which strengthen **UFPA**, as an institution of education, research and social engagement of excellence, globally engaged and socially inclusive.

2017 – Reorganization of the International Relations Office

- Internal structure
- Governance
- International articulation policy
- Linguistic policy
- Support to the Cathedra

PROGRAMS OF ACADEMIC MOBILITY

**Brasil/França
Ingénieur
Technologie**

CAPES-BRAFITEC ("Brazil/France
Ingénieur Technologie")

- Engineering: Mechanical, Computing, Electrical, Control and Automation, and Production.
- French

Erasmus Plus (international cooperation
funded by European Union)

- The courses depend on the partnerships between a Brazilian and an European institution
- English, Spanish, French, German, Italian

Erasmus+

Iberian-American Santander
Scholarship

- Portugal and Spain
- All degrees/courses
- English, Spanish, French, German, Italian

- BRACOL (EXCHANGE PROGRAM BRAZIL – COLOMBIA)
- Spanish (level decided by each university)
- Any course

- BRAMEX (EXCHANGE PROGRAM Brazil – Mexico)
- Spanish (level decided by each university)
- Any course

Biology and Epidemiology of Infectious and Parasitic Agents PPGBAIP (score 6, Capes)

Agents of human and animal infectious diseases
focusing on the Amazon;

Virology;

Immunological aspects related to infectious and
parasitic agents and its relation to the genetics of
the human host;

Epidemiology, genetics and characterization of
arboviruses with focus on the Amazon;

Taxonomy and insect vectors controlling of
infectious diseases on the Amazon;

Epidemiology and identification of the causative
agents of the human malaria;

Taxonomy and biodiversity of infectious parasitic
agents of urban and wild Amazonian animals;

Genetics and Molecular Biology PPGBM (score 6, Capes)

Cytogenetics of vertebrates and chromosomal and cytogenomical diversity;

Molecular evolution and biodiversity of Vertebrates, Systematics and Biogeography of Fishery Resources;

Epidemiology and Identification of Mutations in Genetic Diseases;

Genetics of human populations, forensic genetics, oncologic genetics, Investigation of hereditary metabolic diseases, Paleogenetics, Genetic susceptibility and pharmacogenomics, Normal and pathological variability of the human genome.
